

**SYMBOLS ADVANCED STRUCTURES
SINAN ABU SHINDI CONTRACTING EST.**

About Us

Symbols Advanced Structures is a construction company that has been established with much pride and noticeable presence as a total solution provider and a leading Licensed Contractor in the Jordanian market.

In such a short period of time, we were able to build many modern and state of the art buildings and structures in Jordan despite the severity of the project conditions and the tough economic environment.

Our Vision

OUR vision, our goal is to modernize the construction industry, thus we use advanced technologies and intelligent designs to achieve our clients' full satisfaction which is our main concern.

Engineering

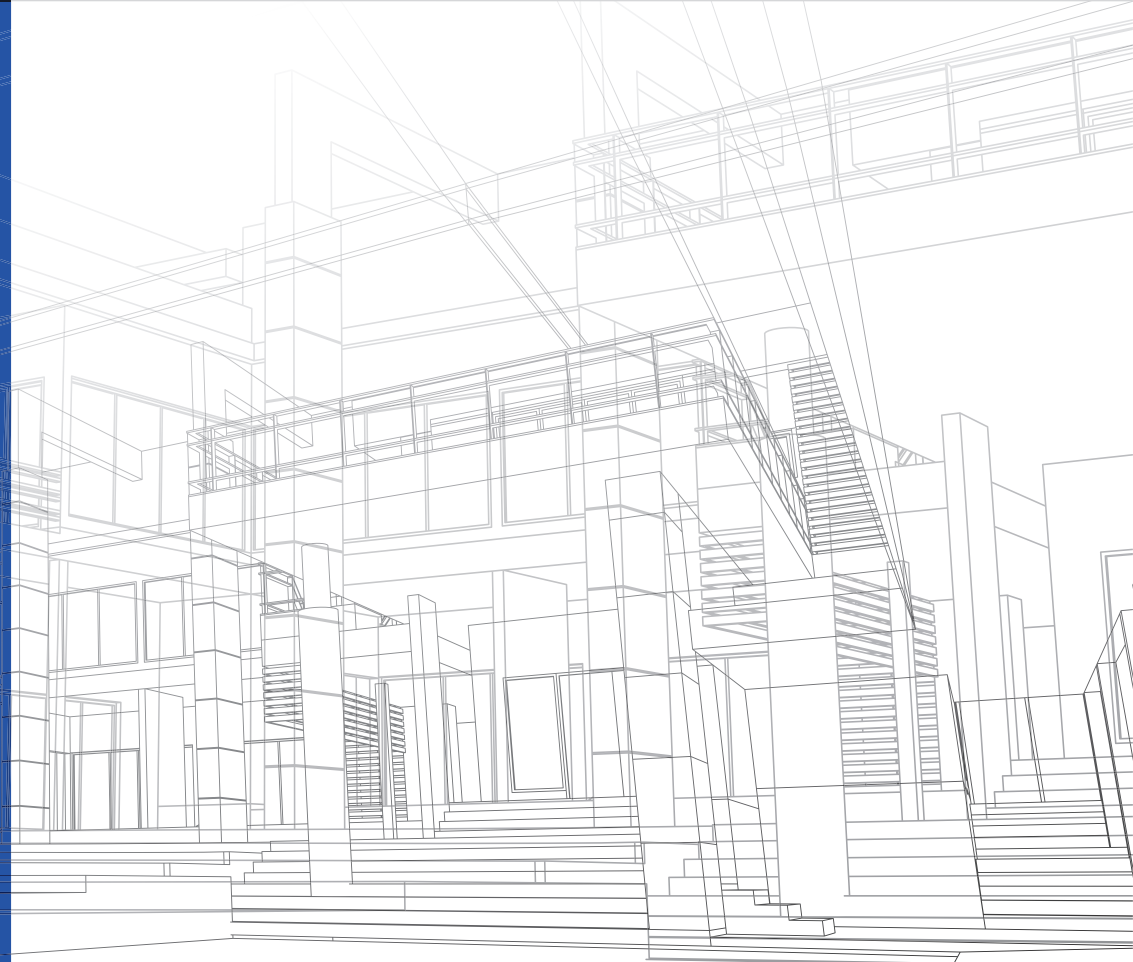

- Our Services Start From Creating Basic Designs & Machinery Layout.
- Preparing 3D Structural Design Models According To Latest Global & Local Design Codes.
- Producing IFC Drawings, Fabrication Drawings, Erection Drawings, & Ending With As Built Drawings.
- Creating Necessary Reports For Procurement & Fabrication (Material List, Part List, Assembly List, Bolts List)

Fabrication

- Automated CNC Material Preparation.
- Assembly Of Parts According To AISC Code Of Standard Practice.
- Welding All Assemblies Through Certified Welders & Using The Required Welding Type According To WPS.
- Preparing Daily Production Reports, & Producing Packing Lists.
- Performing QA / QC Inspections At Each Fabrication Stage Based On QA / QC Plan.

Installation

- Preparation Of Documents (Shipping Reports, Method Of Statement, Installation Plan, & Safety Plan).
- Submitting Time Schedules & Determining Critical Paths.
- Installing All Assemblies Through Skilled & Certified Labor.
- Using The Latest Technologies In Installation Tools & Equipment .
- Following Up All Handing Over Notes Down To Creating Provisional Acceptance & Final Acceptance Certificates.
